

# A NIGHT UNDER THE STARS

Come join us on Saturday, July 5 as astronomer John Starman teches you about our solar system under a live night sky in the field next to the planetarium. The session will begin at 10:00 pm however you can arrive at the field starting at 5:00 pm for a cookout and set up your tents for the evening sleep over. If you have your own telescope, please bring it along however there will be plenty provided by the planetarium for everyone to share. It's going to be out of this World!
